

## Cyber Risks and Privacy

**Tuesday, November 7th, 2017 | 10:00 a.m. – 11:00 a.m. CST**

One of the biggest challenges today in managing cybersecurity, is the changing nature of both internal and external threats. It's no longer a question of if they will be a victim of a cyber-attack, but more about when it happens, will they be prepared both fiscally and emotionally to handle the incident.

Understanding your business digital footprint and properly assessing your cyber risks is a good start to the process, but understanding the risk management solutions available to deal with the incident is a crucial part of developing a sound cyber strategy for your business. This webinar will focus on understanding cyber exposures and how to properly insure against these risks.

Please join us for this one hour presentation by one of our partners, Kenneth LaBelle, a Professional and Executive Liability Broker with Burns & Wilcox Brokerage. Ken began his insurance career with Burns & Wilcox, just after graduation from the University of Michigan-Flint with a Bachelor's degree in Actuarial Mathematics. Ken was a Regional Director and an Underwriting Manager for Burns & Wilcox, where he led a dedicated Professional Liability unit as the Practice Leader for Technology E&O, Cyber & Privacy Insurance as well as Media Liability.
