

Service Line Coverage

Auto-Owners
INSURANCE

LIFE • HOME • CAR • BUSINESS

Service Line Coverage is an optional coverage from Auto Owners that covers underground piping or wiring providing services to your dwelling, including waste or sewage, water, gas or heat, electricity, internet access, cable, telecommunications and more. These lines can be damaged by causes not covered by the standard homeowners insurance policy.

Service Line occurrence provides protection against a leak, break, tear, rupture, collapse or arcing of a covered service line caused by:

- Wear and tear
- Rust or other corrosion, decay, deterioration, hidden or latent defect
- Collapse, but not including sinkhole or subsidence collapse
- Electrical and mechanical or pressure systems breakdown
- Freeze

The “covered service line” must:

- Be located on the “residence premises”
- Be located underground
- Provide a service to the residence as defined in the endorsement
- Be owned by the insured or the insured must legally be liable for its repair or replacement

Coverage limits of \$10,000 or \$15,000 per occurrence are available. A deductible of \$500 per occurrence will apply.

Call your Robertson Team today to learn more about how to add Service Line Coverage to your policy.
